John Doe

Senior Backend Engineer

john.doe@example.com | (415) 555-0101 | Austin, TX

Summary

Backend engineer with 8 years of experience building high-traffic web services with Django/Python and FastAPI. Enjoys designing clean APIs, tuning PostgreSQL queries and mentoring junior developers.

Skills

Python, Django, FastAPI, Celery, PostgreSQL, Redis, Docker, AWS (ECS, RDS, S3), REST and GraphQL APIs, pytest

Experience

Senior Backend Engineer - Brightline Logistics (2021 - Present)

- Led the rewrite of the shipment-tracking API in Django/Python, cutting p95 latency from 900 ms to 180 ms.
- Designed an event pipeline with Celery and Redis that processes 2 million status updates a day.
- Mentored four engineers and introduced contract testing with pytest.

Software Engineer - Pinecrest Software (2018 - 2021)

- Built billing microservices in Python 3 and FastAPI serving 40,000 customers.
- Moved slow reports to PostgreSQL materialized views, saving 30 hours of manual work a month.

Junior Developer - Orbitflow (2016 - 2018)

- Maintained internal tools and wrote data-import scripts for the operations team.

Education

- B.S. Computer Science, Westbrook University, 2016
- AWS Certified Developer - Associate
